

Fire-Lite Offers Fire Systems Training, with CEU Credit

Over 50 training classes offered throughout the U.S. For more than 10 years, Fire-Lite has offered countless free trainings designed for almost every level of industry professional. See reverse side for the 2010 class schedule.

Fire-Lite Systems (2 Days)

This two-day course on Fire-Lite's Addressable Intelligent Fire Alarm Control Panels is for individuals with relatively little experience in installing addressable fire alarm systems. The course covers the features, functions and capabilities of addressable control panels, field devices and option components. The course includes a hands-on exercise in basic keypad programming. Additional products covered are field charger power supplies and internet communications (IP Fire Communicator). Laptops are not required for this class.

Continuing Education Unit (CEU) credits: 1.6

Prerequisites: None

Fire-Lite Systems Plus (3 Days)

This three-day course covering Fire-Lite's Conventional and Addressable Fire Alarm Control Panels is tailored for individuals that are new to the fire alarm industry. The course covers the features, functions and capabilities of control panels, field devices and option components. The course includes a hands-on exercise in basic keypad programming. Additional products covered include releasing systems, field charger power supplies and internet communications (IP Fire Communicator). A troubleshooting class and practical exercise challenges students to apply what they have learned throughout the course. Laptops are not required for this class.

Continuing Education Unit (CEU) credits: 2.2

Prerequisites: None

Fire-Lite Systems Advanced

This two-part training program involves the completion of an online Prerequisite Training Program and attendance in a one-day Instructor-Led Training (ILT) module. This program offers experienced personnel training on a large number of subjects through the online program and advanced programming instruction and application exercises in the classroom phase. Critical attention is given to demonstrating competency in using PSTools – the PC-based programming software for uploading/downloading the configuration database of Fire-Lite control panels.

This is a PASS-FAIL program. Each attendee's Final Grade will be a composite of their performance in the online coursework, the programming exercises and a final written exam.

Laptops are required for this class and must have either Microsoft Windows XP or Windows Vista (32-bit Home Edition). A programming cable will be supplied to each attendee. Lunch will be provided.

Continuing Education Unit (CEU) credits: 1.6

Prerequisites: The online Prerequisite Training Program must be completed by each student prior to attendance in the instructor-led course. This program may take up to 6-8 hours to complete.

Note: This course has limited seating. Due to the requirement for completion of the prerequisite course modules, walk-ins and substitution of personnel cannot be permitted.

2010 Training Schedule*

Location	Class Type	Dates	Cost Status
Albuquerque, NM	Fire-Lite Systems	Feb. 3 – 4	FREE
Raleigh, NC	Fire-Lite Systems-Plus	Feb. 9 – 11	FREE
Los Angeles, CA	Fire-Lite Systems-Plus	Feb. 9 – 11	FREE
Marlborough, MA	Fire-Lite Systems	Feb. 23 - 24	FREE
Marlborough, MA	Fire-Lite Systems-Adv.	Feb. 25	\$200
Chicago, IL	Fire-Lite Systems	Mar. 2 – 3	FREE
Chicago, IL	Fire-Lite Systems-Adv.	Mar. 4	\$200
Little Rock AR	Fire-Lite Systems	Mar. 3 – 4	FREE
Albany, NY	Fire-Lite Systems	Mar. 9 – 10	FREE
Albany, NY	Fire-Lite Systems-Adv.	Mar. 11	\$200
Atlanta, GA	Fire-Lite Systems	Mar. 16 – 17	FREE
Atlanta, GA	Fire-Lite Systems-Adv.	Mar. 18	\$200
Spokane, WA	Fire-Lite Systems	Mar. 16 – 17	FREE
